

Wi-Fi Update

This boating season, FYC is continuing the wireless internet service for its members at **no cost** to the membership.

If you have not signed up yet, do so by sending an email to fycwifi@gmail.com. The email should include your name, member number and email address. With this information, our email administrator can add you to the list of approved users. Once you are added to the list of approved users, the administrator will send you a confirmation email with your password for the wireless system. At this point, you will have login access to the internet by using your email address and password that has been provided in the confirmation email.

If you forgot your password, you will need to take the following action where you have access to the internet:

To reset your password, you need to go to <http://account.meraki.com>

Click on the 'I forgot my password' link. That will allow you to enter your email address that was used to set-up the account. You will receive an email that will allow you to reset your password. You need to be able to access your email to reset your password. It would be best to reset it before you come to the club.

See you on the water.

Marina Director, Sue Okopyn
